Forecast for Thursday 30 Jun 2022

Weather: Dry in the early hours but becoming cloudy, with some occasionally heavy showery rain spreading from the south in the morning, perhaps the odd rumble of thunder. Brightening in afternoon with sunny intervals and scattered heavy showers, again with the chance of thunder most likely towards Strathdon and the Cromdale Hills. Becoming dry with clearing skies in the evening.

Chance of cloud-free hill tops above 800m: 30% in morning, rising 90% in afternoon.

Low cloud and visibility: Cloud descending to 700-900m in the morning bringing very poor visibility to the tops and occasionally poor visibility due to rain below the cloud. Then in the afternoon cloud lifts above the tops and breaks and low level visibility becomes mainly good. Occasionally poor in the heaviest afternoon showers with patchy hill fog in their wake.

Met Office Aberdeen Meteorologist's View
Nothing extra

Forecast for Friday 01 Jul 2022
Weather: A dry night but clouding over in the morning with showers breaking out, some heavy especially from the Northern Cairngorms across to Strathdon, where some longer spells of rain may develop. Rain or showers dying out in the evening.

Maximum wind: Variable 10mph.

Chance of cloud-free hill tops above 800m: 90%, falling 20% in north.

Low cloud and visibility: Good at first but occasionally moderate to poor in showers or rain, and very poor where cloud lowers to 750m in the northeast.

Temperature: **Glens:** 10 Celsius at dawn rising to 18 in the afternoon in the south, but nearer 14 where longer spells of rain develop in the north
At 800m: 8 Celsius rising to 10 for a time in south.
Freezing level: Above summits.
